

Neuron Safari - Tour Guide

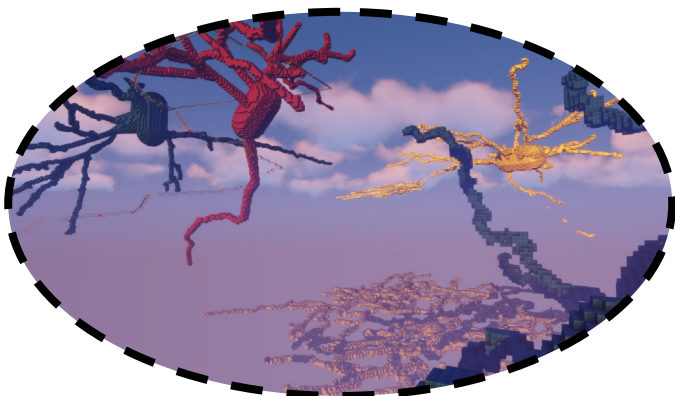

Take a peek at what your skull looks like, both inside and out!

Skull Zone {-854 136 30}

Ride around and through the amazing organ that controls everything you do!

Brain Zone {112 107 115}

Travel through a world of neurons, and learn why they look so strange!

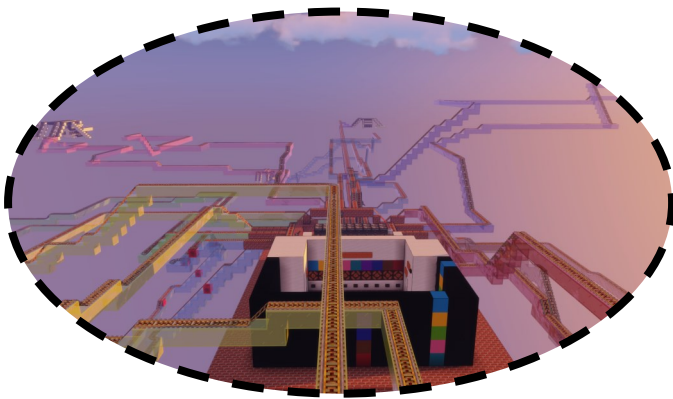

Neuron Zone {1096 116 740}

Neuron Safari - Tour Guide

Learn how neurons make proteins using a special code, and learn how to make your own too!

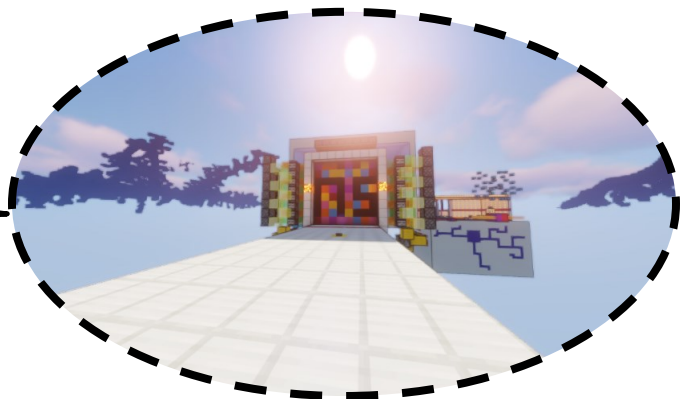

DNA Factory {2837 98 2458}

Play our sorting game, and help the neuron put all its proteins in the right place!

Protein Transport {-2468 97 -2442}

Get a taster about how neurons communicate with one another, and see a real receptor up close!

Cell Communication Laboratory {5049 184 5131}

THE UNIVERSITY of EDINBURGH
Edinburgh Medical School

Biomedical Sciences

Neuron Safari is an ongoing outreach project based at the University of Edinburgh. We are exploring the amazing world of brains, neurons and all things biomedical using the wonders of Minecraft!

We hope you've enjoyed your time exploring the world we've built for you today. Any feedback you can give will help us make this even better - the link to the survey is on the website.

I'm always looking for ideas on what to do next — please feel free to contact me with your ideas or your own things you've built at the links below!
